

AHMED ABDELNABI

Junior Backend Engineer

6th of October, Giza, Egypt | +20 127 533 7796 | ahmed.a.abdelrasol@outlook.com | linkedin.com/in/a-abdelnabi | github.com/Nerosegnofic | nerosegnofic.github.io

EDUCATION

Cairo University — Faculty of Computers & Artificial Intelligence

Bachelor of Science in Computer Science; GPA: 3.37/4.00

Giza, Egypt

Oct 2022 – Aug 2026

EXPERIENCE

DevOps Trainee

Jul 2025 – Dec 2025

Digital Egypt Pioneers Initiative (DEPI)

Giza, Egypt · Hybrid

- Digital Egypt Pioneers Initiative (DEPI) is a national program providing intensive, hands-on training in cloud computing, DevOps, and modern IT infrastructure. Completed 70+ practical sessions focused on real-world tools and workflows.
- Gained hands-on experience in Shell scripting, Linux, Kubernetes, Docker, Git, GitHub, GitHub Actions, Jenkins, Ansible, Terraform, Amazon Web Services (AWS), and Prometheus, Grafana for automation, cloud infrastructure management, and monitoring modern DevOps environments.

ASP.NET Core MVC Trainee

Sep 2025 – Oct 2025

Information Technology Institute (ITI)

Giza, Egypt · Remote

- Information Technology Institute (ITI) is a government-affiliated institute providing intensive, industry-oriented IT training. Attended 20+ intensive hands-on sessions on ASP.NET Core MVC, C#, and database development.
- Completed training in ASP.NET Core MVC, gaining hands-on experience in database design and ERDs, Transact-SQL, C# programming, Entity Framework Core, and building modern web applications with ASP.NET Core MVC.

PROJECTS

StudyMentor (*Grad. Project – A+*) | *Flutter, Kotlin, Firebase, FastAPI, PostgreSQL+pgvector* Aug 2025 – Jul 2026

- Co-led a 4-person team to build StudyMentor (FCAI graduation project), an adaptive learning platform that converts school curricula into personalized, gamified quizzes with parental oversight.
- Owned end-to-end mobile development, implementing the parent/student experiences, secure authentication, and integrating multi-developer contributions into stable production releases.
- Designed and built a "quiz-to-unlock" reward system, allowing students to earn device screen time through quiz completions governed by configurable parental cooldowns.
- Integrated automated study-time tracking, push notifications for inactivity/streak reminders, and full app-wide bilingual localization (Arabic + English).

YelpCamp | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Bootstrap*

Aug 2024 – Sep 2024

- Developed a campground review web application (YelpCamp) that lets users add, edit, and delete campgrounds with photos, locations, prices and descriptions, and lets users post reviews for any campground.
- Built a complete server-rendered web app with database seeding, server-side templates, user authentication and session management, file uploads to Cloudinary, and interactive maps showing clustered campground locations.
- Implemented data models and relationships (Campground, Review, User) with Mongoose/MongoDB, added input validation and HTML sanitization, and provided RESTful routes and controllers to support all client interactions.

Online Bookstore (Tale Tower Library) | *HTML, CSS, JavaScript, Django*

Mar 2024 – Jun 2024

- Built a server-rendered Django web application for browsing books, viewing details, and admin management.
- Implemented CSRF-protected forms, client-side interactivity with jQuery, and maintainable Django app structure.

TECHNICAL SKILLS

Languages: C/C++, C#, Python, Java, Dart, Kotlin, SQL, HTML, CSS, JavaScript

Frameworks & Libraries: Node.js, Express.js, Django, Spring Boot, ASP.NET Core MVC, FastAPI, Flutter, JUnit, Bootstrap

Databases: Transact-SQL, PostgreSQL, MongoDB

DevOps/Cloud: Docker, Kubernetes, AWS, Firebase, Git, GitHub, GitHub Actions, Jenkins, Ansible, Terraform, Prometheus, Grafana
